Such a man is the fit representative of Radicalism. As a Know Nothing, ite, like

Radicalism. As a Know Nothing, i.e, like schuyler Collax, tried to proscribe the foreign born citizen. Like Colfux he wishes to prescribe all Democrats. Like Colfux he prefers the negro to both native and party foreign-born citizens.

the success of the Spanish revolution seems so far compilete. The royal army has been defeated, the Queen has fled the country, and a provisional government has been organized. Who the successor is sabella is to be, or whether, indeed, she is to have a successor in the old kingly throne, is something that remains yet in the womb of time. True, it is announced by cable dispatch that nothing has been delipatch that nothing has been decided yet, except not to have a republic but, as before said, revolutions rarely or never go backwards, and it is impossible to foresee in what this one will ultimately be terminate.

The we expect to hear a good account from the old Keystone State on the 18th. Everything indica—a Democratic success there. Of course the Pennsylvania Democracy will have to contend against all sorts of election fraud but they seem fully of election fraud but they seem fully of election fraud but they seem fully of election frauds but they seem fully of

acknowledged to be one of the shield Repub

the most courisons and gentl-mainly in debate.

During the present cantens we have given the speeches of many of the ablest men of both parties, and it the readers of the Cou-ment do not now understand the postill of both sides, and are not thoroughly po ted as to the issues noder discussion, the fault is ex-

The Democracy of Mad., Ind. are mak-ing preparation for a grand meeting at that place on Tuesday next, which will unquestion ably be one of the most brilliant demonstra-tions of the campaign in Indiana. Gen. Frank Blair will certainly be pre-ent and address the people, and oth r abl- and dl-tis-rished speak rs will also be there. There is too nuch genuine republicanism

Under the circumstances it is not aurprising that Geo. Granger's statement, militating so strongly as it does against the constraint of the Radical party, should not be will received by that party. Nor has tien. Granger reason to think life case a hard or exceptional one. We could mention cue whose name stood high on the rall of merit in the days when fierce battles will be considered in the land, and who was actually called "traitor" the other rall as at a Radical consent on in the land, and who was actually called "traitor" the other rall as a Radical consent on in Philadelphia That eminent general and state-tian in as declared the principles of Radical on the Radicals believe him?
